Cigarettes, ice cream, figurines of the Virgin Mary
Herywalery

It's splendid that you have decided to choose the exceptional Zen Black lamp. We hope it's design and ergonomic will fulfil your high expectations, as we believe we are directing our product at a demanding, design-savvy customer. We wish you to have the best experience using our products!

Installation

After taking it out of its packaging, the lamp is ready to be mounted on the wall and plugged in. If you decide to connect it to the electrical junction box in the wall, connect the cables in the way described on the feeder, which is placed under the hood of the lamp. Disassembling the hood requires unscrewing two bolts and taking off the flap with the logo. Attention! Disassembling and installing the lamp is best be commissioned to a professional electrician or done in accordance with the rules of working with high voltage.

Unprofessional handling and modifications can cause damage to the lamp or put your health and life at risk. After connecting the cables, you need to tighten the bolts on the flap again, and mount the lamp on the ceiling or wall.

This lamp works with voltage in the range of 110V to 240V so you can be sure that it can be used all over the world.

Use

The lamp is operated simply by turning it on and off by means of a switch located on the cable or in case of a ceiling lamp - on the wall.

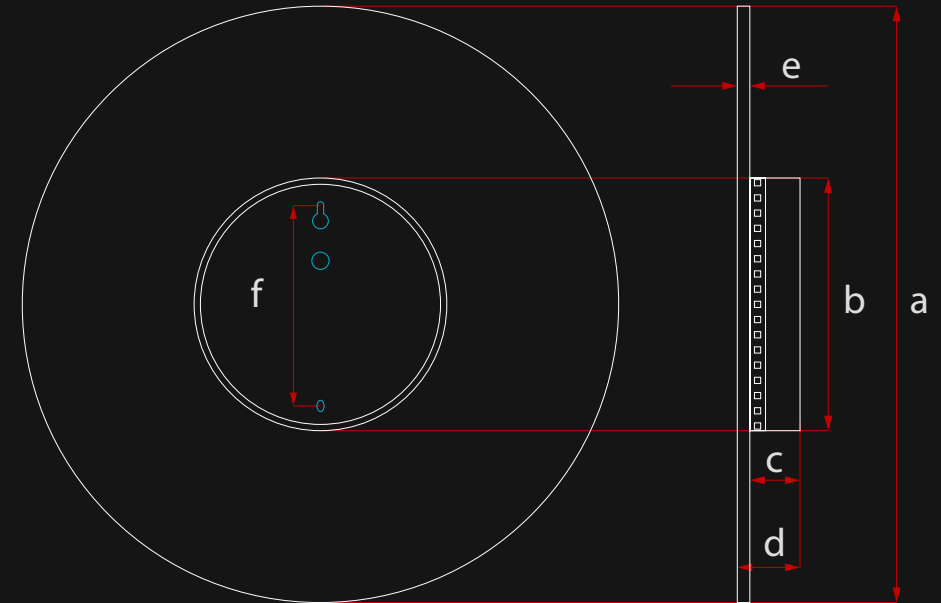

Maintenance

The operation time for the lamp is 50000 hours. In case of any malfunction, please contact us. It is best to clean the lamp using a micro-fiber cloth. If there's a need for a more throughout cleaning, it's best to use a de-greasing solution or dishwasher liquid.

Zen Black types

The Zen Black lamp exists in a couple of different colours and sizes, and it could be prepared specifically to order. The Zen Black lamp is designed so it can also be freely arranged into an artistic form alongside other Zen lamps of different shade and size. Feel free to contact us, and we will design something specifically for you.

depth d	4 cm / 1.77in
thickness e	0,8 cm /0.315in
distance f	13,3 cm /5.24in

Parameters

color	black + color selected from the palette
supply voltage	110-240V
power consumption	max. 20W
light source	LED warm white (2700K)
cable length	3 m

Zen Black

Focus your mind on the ring of light and relax. Allow your senses to focus. Follow your zen. The Zen lamp shines in a circular shape within the centre of a circle. The light is also emitted on the walls, subtly lighting the room. The source of light we decided on using has a high colour rendering index (CRI>80%) and is per-

fectly suited for rooms meant for relaxation and rest. The lamp can be mounted either on the wall or on the ceiling, and the cable can be respectively either hidden in the wall, or ended with a plug.

The Zen Series

The Zen lamps are lamps made to fulfill your needs - you will find a lamp in any size and colour and for any purpose. The light source are LED strips - ecological and safe, allowing you to use them in many different ways.

All lamps are made of acrylic glass. This ma-

terial is recyclable, so you can be sure that if you take care to recycle the lamp, it will get a second life.
